

New Revenue

Saves Time

Convenient and easy to use

Dual Balance allows your customers to check balances of multiple accounts in a single transaction. Customers get the convenience of one transaction to see both checking and savings balances and you earn extra interchange revenue with each multi-account inquiry.

Financial Consideration:

- For ATM customers who opt to receive balances on all accounts, you receive interchange revenue for each account inquiry

Benefits to ATM Operators:

- More transactions equal more profit
- No cost to activate
 - o No hardware required
 - o Simply enable the Dual Balance feature in your operator menu
- Works on all processors

Customer Features:

- Get multiple account balances, quick and easy in one transaction
